## Customer Reviews

I have had better books for stencils than this one but it is okay. There are a few nice stencils in here and the how to instructions are easy to follow for beginners.

The patterns are lovely, but the stencils are difficult to cut accurately. (Not really perforated) For ideas, this book is great.

I think the best part of this book is that the stencils are useable. You can cut them right out. I wished there were a better variety though.

Great for crafting & quilting. Many patterns

nice folk art designs..
