Customer Reviews

These stencil books are probably hands down THE best bargain on . I bought 9 of them for painting onesies at a baby shower. So much more cost effective than other stencils I considered. Stencils are done on thick stock paper and there wasn't one design that was at all disappointing. Would buy time and time again.

Bought every one of these little books that were available. They are small, about 1/4 the size of a standard sheet of paper. The inside is medium weight card stock and each page has one stencil. There are maybe 8 to 10 pages of stencils based on the book's theme in each book. Wouldn't use for a painting project, but I'm planning to turn them into fabric applique designs, and they will be perfect for that use.

Used this for a Onesie and Bib station at a baby shower and they were a hit. Easy to use and the

perfect size. There are 6 stencils in each booklet, they're perforated so you can take the booklet apart. The size of the stencil is about the size of a 4x6 pic and was the right size for our project. They are a coated card type material but were very durable as they were used by many people, many times. Would definitely purchase them and use them again.

These books are tiny enough that I have been able to stud from them directly..If not, you can get a fabric marker, drawing a light pattern and doing it that way.I have been able to spice up jeans, shirts, leather jackets and more using these stencils.

These are great designs for use on anything you want to decorate! We used them on one sires, bibs, and burp cloths with Sharpies and everyone really oohed and ahhhed at these heart designs!

Our grand daughter has enjoyed using these cardboard stencils when painting or tracing with markers, pens and pencils in her many craft projects.

These stencils are super cheap and exactly what you would want out of stencils. Lots of variety, very cute. I would buy them again.

We liked this because we could put hearts on or toes and they were small enouh that they fit thanks we had fun
