Customer Reviews

Useful. Compact, reliable, most important sales are well documented, and even minor names of artists are registered. I do regret of not buying it before. Highly professional, well-balanced and calm approach - Hislop's is not boasting about multi-million sales, or trends, or tendencies - it gives you the information on the hammer prices within a certain period of time. Great job

-This reference work is a must for anyone tracking down works by listed artists. I carry it with me when I visit estate sales - you never know what you'll find!

the book tell me a bout the fine art so when i look for art i will no more about it

This is not a coffee table book. It's a serious reference book with lots of info.
