Customer Reviews

I believe the reviewers. Theres plenty of valuable information in the net regarding Termites, but what were looking for is the solution to them and thats whats supposed to be what were going to pay for. If the author is just sending us to a professional, whats the use of buying this book when we hv Wikipedia. THANKS REVIEWERS!! YOU ROCK!

Most information is common knowledge. It ends with calling a professional. Then why would I need the book? There is another book out there. Hope it is better.

It has very little information. Very general, does not help me in treating my own termite. Was a waste of my money. I still don't know how to treat termites. Very deceiving book title.
