This is great! I love the black pages because it makes the colors really pop. With the books that have white pages I'm always torn if I should leave that white or waste my pencil for a background color, with this book I don't have to worry about that stuff. This book is fantastic, my day last week went from bad to worse and it really was stress relieving to color curse words and phrases. If I ever find that isn't working then I can use the book to slap someone with.

I'm loving this book by Thiago Ultra! Not only does it contain all crass cursing that is an absolute delight on those days you really need to express it but may have smaller ears nearby that *shouldn't* hear it-but it is actually even funnier than many! I really like his creative works-such as making sure the picture for "shi*storm" actually looks like that is what is going on! I've included a

picture I've already colored-with and without the flash. This book is highly recommendable for all adults looking for a uniquely entertaining swear word coloring book! If you are easily offended, of course, I would say this book may not be up your particular alley. Also, the pages are thick enough, but-if you use gel pens and/or markers, just make sure you use a blotter page or two. I always use 2 to be safe, but I noticed it did seep through to the first page, however not at all to the second one. By the way, I did pay full price for my book-so be assured my review is 100% unbiased!

This coloring book is so much fun, and will definitely have you laughing. Each page has a black background and a white filled design to color in. On each page is a different curse word. Some I had heard before, but others I swear had to have been made up. They were hilarious. Would be a perfect book to use on a girls night with the friends and some wine.

quite the imageation to put together such a book i give you hands down for the wonderful work that is put into making a coloring of this type unreal, a very nice job keep it up,be looking for more of your books

Friends and I are coloring pages for each other based on office drama. Feels like elmtary school a bit but fits our personalities to give each other cutely colored pages with vulgar things

The front of this coloring book is very deceiving. I was disappointed when I looked through all of the pages and mostly found weirdly drawn animals.

Best coloring book ever! Love all the sayings and the images. I bring this to work and all my coworkers steal pages from me!
