Dump Dinner Cookbook: 40 Recipes to Cook with Your Skillet, Casserole Dish, Slow Cooker, and Dutch Oven (Freeze, Heat, and Eat Meals) Explains what a dump dinner is. One chapter devotes itself to skillet dinners. Recipe comes with a chart of servings, prep/cook times, and nutritional information, ingredients and instructions on how to make the dish. Other categories include dutch oven, casserole cooking along with other methods. Free gift at the end.

From the title of this book, I was expecting recipes I have seen on TV for the Dump Dinner books. In the introduction, the author leads us to believe she does not like to spend a lot of time cooking, yet several of her recipes require 55 minutes between prep and cooking! The recipes here are definitely not just dump your ingredients into a casserole pan and put in the oven! While there are those of us who don't particularly like cooking, we all should remember cooking for ourselves and others is not time wasted: food nourishes our body, and we share love and caring when we provide food for others. If you want true dump recipes, look for the one mentioned on TV, not this one! Disclaimer: I received this book for free, for my honest and unbiased opinion.

Disclosure: I received this product for free in exchange for my honest and unbiased review. This uses lots of processed foods/flavor mixes. The recipes are high in sodium and carbohydrates. There are lots healthier ways to "Dump" cook.

I have seen the term dump cooking quite a bit lately and didn't know what it is. Basically it is what people used to call one pot dinners. Most of these recipes use just one skillet, or one casserole dish. Some of them require you to mix ingredients in a bowl before adding to the pot or pan, so you will only dirty two dishes and maybe a few measuring cups or spoons. The recipes are simple to make, use ingredients found in any grocery store, and don't take long. From start to finish your meal will be ready to eat in less than an hour. The author gives you the prep time, cook time, and nutritional value for each recipe. This book is great for anyone, but would be really good for an inexperienced cook who wants to learn to make delicious meals or someone with limited cooking space. Dump Dinner Cookbook: 40 Recipes to Cook with Your Skillet, Casserole Dish, Slow Cooker, and Dutch Oven (Freeze, Heat, and Eat Meals) Who does not want to spend less time preparing meals? Sadie Tucker's Dump Dinner Cookbook gives you wonderful recipes that take very little preparation time and everything is cooked together. Dump cooking is an easy way to prepare your meals

without having to use a variety of cooking pots. Sadie Tucker also provides a great assortment of wonderful recipes for all meals."Disclosure: I received this product for free in exchange for my honest and unbiased review"

Do you want to cook delicious and nutritious meals for your family? Are you a huge fan of comfort food? Do you prefer easy to follow recipes? This book has it all. The recipes are not complicated and provide step by step instructions. Most ingredients are easily found in your kitchen. I loved that the pages are visually pleasant to look at. The best part of the recipes in this book is that you will feel comforted in knowing that the meals are very nutritious and are inexpensive to make. To describe this book in one sentence, " Easy, Pleasy, home cooked meals that will make your whole family happy."Disclosure: I received this product for free in exchange for my honest and unbiased review"

I received this book for free in exchange for my honest and unbiased opinion. Therefore, I cannot comment on paper quality. As for the book itself, it has a lot of interesting ideas, and of course as with any cookbook, some recipes that made me personally cringe because I am a bit picky. Even being picky, there are several recipes in this book that I look forward to trying out! I would recommend this book, especially for people in the go. Also those who have some cooking ambition...but not enough to spend forever giving a new idea a try!

Good recipes although not the most healthy dishes. Most are what we use to call 1 dish dinners. I am one of those who enjoy cooking and to a degree experimenting with spices and sauces. Thus not really interested in the books fast and easy recipes. I leave this type of cooking to those poor souls who are still too exhausted to enjoy cooking after a day slaving at a hot desk.I received a PDF version of this book at no charge in exchange for my honest review.
