Pygmy Goats As Pets. Pygmy Goats Care, Housing, Interacting, Feeding And Health. Pygmy Goat Owners Manual.

Synopsis

Pygmy goats are the most adorable goat breed. They are miniature goats that provide the best source of entertainment to goat owners across the globe. Pygmy goats were introduced to the world from central Africa. These goats were the result of a type of dwarfism. However, because of their hardiness and because of their calm and friendly nature, they were taken into individual homes. Another important trait of the pygmy goat is their size. This makes them the perfect urban backyard pet. They are not as demanding for space or food as other dairy goats but provide milk that is of better quality. Therefore, these goats are great pets to have. It is important to understand when you are bringing home a pet goat that this animal needs special care and attention. They are seldom found in the urban set up. They are usually raised in large numbers on farms and also in designated commercial set ups where there is ample professional help available to take care of these animals. If you are planning to bring a goat home, on the other hand, you must invest a lot more time doing your homework and research about this animal in the first place. You must be sure that you can take on this responsibility before you make a commitment. This book covers all the subjects including how choosing your goats, how to take care of the goat, how to feed them and even how to ensure that they are always healthy. This book is perfect for a first time owner. Covered in this book:- History- What you need to know before you buy- Housing- Grooming- Daily care- Milking- Interacting- Breeding- Health and well being- Insurance- Costs.... and much more

Customer Reviews

This has got to be, quite possibly, the worst book ever written. I don't know if it was translated from another language or what but there were numerous references to chickens when it should have said goats. Also, this is pretty much 4th grade reading at best. No helpful info at all. Everything in here can be found in under 5 minutes on the internet. Seriously awful publication. Buy it for a kid (huh, funny) but not for an adult. The goats for dummies is a much better book. I can't emphasize enough how terrible this really is.
