Cook Book: 20 Easy Recipes For Busy Parents: The Best: Fast And Easy, Homemade Food Using The Manual Food Processor Master Slicer

Synopsis

The kids are hungry, you're hungry, but what will you cook today? This question keeps repeating itself every day, but it seems like we can no longer reinvent ourselves. Sometimes we buy a beautiful cook book: "over 200 recipes!" says the cover. But when looking at the text between the glossy photos we find that most of the recipes are too complicated for our busy daily routine. In this book I present a relatively small number of recipes, quick and easy to prepare. I believe that it's better to actually prepare 5 or 10 recipes out of 20, than just look at 200 beautiful photos... I use Master Slicer - a manually operated food processor that works like magic. I invite you to check the recipes and turn cooking from a chore to an easy activity, which can be fun for everyone and bring the whole family together. Please check slicer4u.com/product/master-slicer-with-book to see the recognition my book got from the Master Slicer's manufacturer!

Customer Reviews

I had owned the print version of this booklet, and enjoyed making those easy-to-use but delicious

recipes. My kids especially liked the pasta sauce and the vegetable fritters. These recipes are pretty simple, but as many of the recipes in this book, they have a certain twist. Like the quaker oats in the fritters. As we are (very) busy parents, and use various choppers a lot, the fact that the book is targeted towards Master Slicer Customers is a great idea.

I bought the Master Slicer and thought cooking will be easy but as someone who is not such a good cook I needed help and looked for recipe book that will incorporate the Master Slicer and after looking at several I found that this one is the best! I highly recommend it!

Simple & effective.. exactly what i need to get my kids on a fast and healthy meal.
